

**New Forest
Academy**
To make our best better

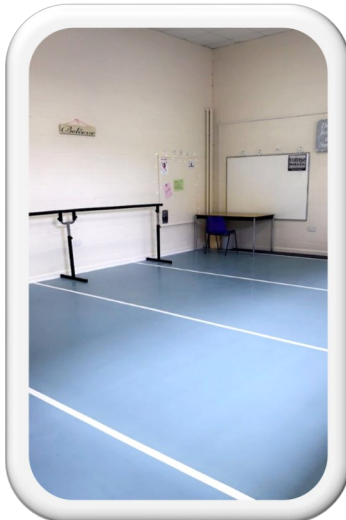

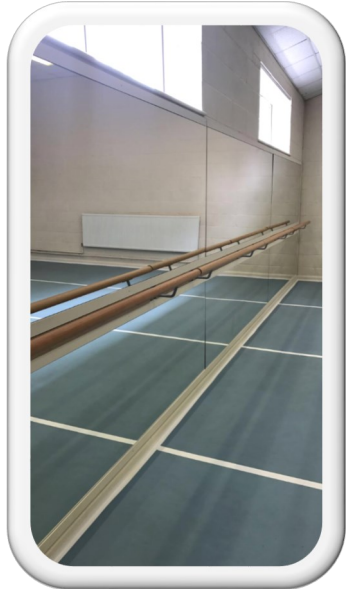

New Forest Academy now has a purpose built dance studio as part of a partnership with local dance school Shine Studios!

Boasting Harlequin stage flooring, mirrors and Image 18 removable ballet barres it is the perfect place for students to develop their performing arts skills under the watchful eye of our talented performing arts teachers.

Students can study dance as part of core PE lessons as well as participating in the many performance opportunities with the academy's own Performance Team led by Community Engagement Lead Miss Williams.

After school hours the studio houses Shine Studios, a dance school renowned for providing exemplary dance training to local children. Past students have gone on to dance at Disneyland Paris and West End shows as well as train at prestigious centres such as Trinity Laban Conservatoire and London School of Contemporary.

We look forward to students present and future being able to utilise this incredible space.

Principal Karen Godsall said, *'We are delighted to have secured this Shine Studios dance space for the benefit of local students and their families.'*

We are already strong in the performing arts and this new departure has just strengthened our provision even further.

Many students are also thrilled to be able to use this new dance space.

On behalf of the New Forest Academy community I would like to personally thank Emma Williams for making this all happen.'
